

Amendments to the Specification

At specification page 7, replace the paragraph beginning with "[a] shorter inner layer -5-" with the following replacement paragraph:

A shorter inner layer -5- is subsequently inserted, which inner layer 5 is relatively thicker, woven or injected of a thermoplastic material, adopting a tie-like shape, or the like, provided with a semi-circular recess -6-~~[[,]]~~ ~~which~~ The inner layer 5 is to be floatingly positioned between the outer sheet -1- and a third thinner separating inner sheet -7-~~[[,]]~~ ~~which~~ The inner sheet 7 is provided with a circular orifice -8- and a screen-like stripe -9- at one end. ~~This~~ The inner sheet 7 is attached at the edge of the orifice -8- to the terminal planar lip -10- of the bushing -4- by means of a suitable welding, adhesive or the like - S2-.
